

Project: I-86 Prospect Mountain Phase I [D030948]
Location: NYSDOT Region 9, Binghamton, NY
Client: New York State Department of Transportation, Region 9
Cost: \$12.1M
Year: 2011 – 2016

Work Performed:

- Detailed Inspection
- On-site field testing
- Construction of New Bridge Structures
- Significant Work Zone Traffic Control
- Significant Erosion and Sediment Control Issues
- Night Work and Weekend Work by Inspection Staff

Project Description:

Prudent Engineering provided construction inspection services for the Prospect Mountain highway and bridge construction contract PIN 9500.61. Safety concerns of the area drove the need for the project.

The scope of work encompassed approximately five miles of new alignment for Routes 17 and Interstate 81 for the conversion into Interstate 86. The project work is in the vicinity of the existing, heavy volume, Interstate 81/Route 17/Route 7 interchange.
